

Shape more than just your career

Job Title: Manager Advisory

Location: St. Maarten

At Grant Thornton we're driven by a purpose of shaping our clients' future, based on trust and integrity in markets, dynamic businesses, and communities where businesses and people thrive. By living our purpose and focusing on quality, we strive to be the go-to-firm for growth. We are creating our own unique culture – one that offers the opportunities of a major organization in a personal, close-knit environment and that's built around a Challenger Leadership style and a Shared Enterprise model. Our growing advisory portfolio on St. Maarten requires a full time local Manager Advisory. Together with our Curaçao Advisory team you are responsible for a further growth of our client base in St. Maarten and surrounding islands. Our advisors support organizations in creating, transforming and protecting business value. We are a team with deep industry experience, and practical operations expertise, who work collaboratively with our clients to achieve world-class operations.

Who we're looking for:

- You'll have a genuine interest in our clients. We want to provide a distinctive service and unlock potential for growth in dynamic organizations;
- You'll know that what you do matters. As an organization we want to be known for how we do business, not simply what we do. So, we need people who know that every act matters from the simple things to the insights we bring to clients;
- You'll seize opportunities. We want to adapt quickly and wisely to changing conditions to optimize growth for both our clients and ourselves;
- You'll apply critical reasoning to bring clarity and insight. We do it by asking great questions, listening and drawing on our collective knowledge and experience to really help others grow.

Education, experience and qualifications:

- Master's degree
- Minimum of 7 years relevant work experience
- Proven experience in consultancy
- Strong written and oral proficiency in English and preferably Dutch
- Demonstrated experience of managing small teams
- Project management and transformation capabilities
- Analytical and numerical approach to problem solving
- Strong written and verbal communication skills
